OFF THE WALL

Audio Visual Furniture Collection

About us

Background

At Off The Wall we create innovative audio visual furniture. With over 30 years of experience in both designing and manufacturing products directly for leading television brands, Off The Wall has brought together design and engineering excellence to produce a unique, stylish range of furniture.

Manufacture

Our manufacturing process is a fusion of precision engineering and hand crafted touch. All our furniture is constructed from high quality materials which are laser cut and CNC machined. Our wooden panels are hand finished by our skilled craftsmen, with each veneer carefully selected.

Facilities

Based in the UK, our state of the art facility has its own purpose built paint and finishing unit. Our modern and flexible manufacturing process enables us to meet customer needs and supply demands efficiently.

Quality Control

We insist on a very hands on approach and work to specific high tolerances. Our obsession with attention to detail is part of our constant mission in maintaining exceptional quality standards.

Packaging

We invest a lot of time and effort into our recyclable packaging. All parts are carefully hand wrapped separately to ensure the quality of our furniture is protected through the roughest transport handling. Our furniture is easy to assemble with clear simple instructions and large illustrations.

Customer Service

Working very closely with our customers has enabled us to build strong relationships. We provide excellent technical help and advice along with individual sales care. It is important to us that you choose the right Off The Wall furniture for you.

Motion

Skyline

No More Wires

The intelligent cable management solution from Off The Wall

All our furniture is cleverly designed with our unique NO MORE WIRES feature. Hidden inside each stand is a four way extension lead with cable ties that allow you to easily organise all the clutter of cables and wires, leaving only a mains lead connecting to the wall.

Profile

Motion

The Motion range is a stunning synergy of clever engineering and designed simplicity. Packed full of adjustment features it has a smooth swivel action that lets you angle your screen to the perfect viewing position. With further screen and shelf height settings you can place all your AV equipment exactly how you want them. You can also enhance your sound by adding a sound bar with the optional sound bar bracket. This fits easily and swivels with the screen to keep your picture and sound quality together.

Box Dimensions:	H: 172mm x W: 1090mm x D: 680mm

Origin

The Origin range integrates beautifully with any make and model of TV. Discreet and elegant it looks superb from any angle, hanging the screen as if on a wall but without the need to modify your interior. The Origin is available in two heights for small or large TV's, in a wide variety of colours and real wood veneers. With screen swivel, further TV and shelf height adjustment you can position your TV and equipment to your own preference. You can also attach a sound bar with the optional sound bar bracket to complete your audio visual experience.

Skyline

The Skyline range is tailored to suit your AV equipment, available in two width sizes for both simple and professional set ups. Its clever design removes the need for unsightly pole legs creating more shelf space within less floor area. Whichever size is for you, the Skyline will enhance your display without dominating your living space.

Highlight

The Highlight range is a beautifully detailed high gloss open cabinet that sits neatly in the corner of any room. The deep paintwork is highlighted by attractive brushed aluminium detail along the curved front edges. There is ample room for all your AV equipment within the two size options and the two colour choices can be used to great effect, to either enhance or reflect your interior style.

Profile

The Profile range is a perfect blend of contemporary and traditional furniture. Its curvaceous design flows seamlessly with any interior being practical without the bulk of a large box cabinet. Without corners the Profile fits beautifully into any space and is available in black, silver and real wood veneer finishes. The reversible inner and outer sides in black or silver also allow you to personalise your cabinet, whilst AV equipment is safely hidden away behind glass doors on an adjustable shelf.

Horizon

The Horizon has a subtle but striking silhouette with its gently curved aperture floating effortlessly off the floor. Its free flowing shape outlines a practical space where AV units can be placed side by side or stacked on top of each other. Slim forms and a low stance easily place the Horizon within any interior or decor.

Overall Weight:	38Kg
Box Dimensions:	H: 242mm x W: 1126mm x D 560mm

Eclipse

The Eclipse range is as dynamic as it is sophisticated. The curved shape of the glass door and sides lift the bottom corners away from the floor enhancing its floating appearance. Gone are box corners but cabinet space and practicality are not compromised. The Eclipse has an ingenious and unique soft open / easy close door. Push the door catch and let the door gently open all by itself. To close, simply lift the door back up with one finger. This elegant movement reflects the exceptional quality of the cabinet where AV units are neatly stored in stylish simplicity.

Mono

The Mono range is a stunning combination of function and style. It boasts generous levels of space to allow even the largest of AV set up within its slender and compact frame. Beautifully formed for the corner of a room its contemporary style and dramatic floating shelf make an impressive stage for any audio visual display.

Duo

The Duo range is extremely versatile and offers flexibility within a compact corner friendly design. Its low, sleek appearance is deceptive as its unique soft opening / easy close door hides generous AV unit space where equipment can be placed side by side or even stacked. The door gently opens all by itself once the catch is pushed, then simply closed with one finger. Above the cabinet is an open space ideal for a speaker bar, additional units or simply for magazines and above that, the TV floats impressively on the safety glass shelf.

Contour

The Contour combines maximum storage with subtle contemporary styling. Available in two sizes the Contour has the ability to display large screen size TV's with full width pedestals. The wide shelf below gives plenty of room for the latest Sound Bars or for two additional units. Remote friendly tinted safey glass doors slide aside to reveal substantial space for even the largest of AV equipment. Tactile sculptured sides add a unique 3D texture into furniture and the interior.

Curve

The Curve range is at the cutting edge of technology and style. Designed to suit the latest and largest curve screens, its ingenious shape looks bespoke with any width of set. The outer frame matches the width of 65” TV where as the suspended inner cabinet lines up perfectly with a 55”. Its dynamic looks don’t compromise as the cabinet can easily hold large AV units with wide sound bars on the shelf above. Every element from slanting sides to tapered top are all styled to emphasize this dramatic panorama.
